HTP STATEMENT ON IRAN EARTHQUAKE

We share grief with the people of Iran and all victims of the devastating earthquake which has claimed more than 500 innocent lives in the Persian Gulf and some parts of the Middle East. Our condolences go to the Government of Tehran for this tragedy. We stand with those helpless and shelter less people.

This incidence reminds us of the Japanese Earthquake, Tsunami and Fukushima Nuclear Tragedy whose wounds remain fresh in our lives.

Heal The Planet Global Organisation- HTP calls upon the International Community to respond to the humanitarian concerns of the people of Iran at this dark moment. There's more to be done including providing food, medicine, rebuilding houses and much more.

Scientists and governments must accelerate measures to detect and install early warning systems to avert the damage and risk in case of such occurrences.

The East and West Cost of North America is at stake as more than 30 million people on the coastal towns could perish in case of a Tsunami strike.

It's our obligation to take action.

Isaac Malcolm Bulamu

Director Department of International Relations & Diplomacy
